Instructions for lifting the Torah: unroll the Torah to three columns wide (preferable to see a seam of the Torah), lift the handles a little bit and slide the Torah partially off the table toward you, push handles down (to give you leverage for the lift) and lift the Torah up for all to see. Turn half way around to the right and then turn half way around to the left. To put the Torah back down on the table, bend your knees, bring your hand a little lower than the table, lean the Torah against the table, and lay it down. Once on the table, roll the Torah closed, being careful not to bend the scrolls, and then lift (as before) and sit down holding the Torah so that it may be tied.

You will hold the Torah until it is returned to the ark (on page 233)
